With the release of Minecraft Bedrock Edition, Mojang team also announced that they will support servers better than ever. That means that once you launch a server, no one can stop it unless you shut it down yourself. Before this update, if your Anti-Cheat software is not updated, or you don't have a firewall but still want to run a successful server, people can easily hack into your server and ruin everything. With the new updates coming soon to Bedrock Edition servers, this problem will be solved and everyone will be happy playing on their favorite servers.",
